📌 Application Overview

Application Name:

Journevia

Tagline:

"Roam. Chronicle. Rewind."

🧭 Introduction

Journevia is a personal travel companion built for explorers, wanderers, and storytellers. It allows users to capture, relive, and share travel memories through rich story creation tools. Whether it's a weekend road trip or a cross-continental adventure, Journevia helps users preserve their experiences in a meaningful and beautifully organized way.

🎯 Purpose of the Application

Journevia is designed to:

- Provide an intuitive platform for documenting travel experiences.
- Organize and present travel stories in a user-friendly and visually appealing format.
- Allow users to reflect on past travels and plan for new adventures.
- Support interaction with personal travel logs through search and calendar-based navigation.

🧰 Technology Stack

Journevia will be developed using the **MERN Stack**, which includes:

- **MongoDB** – For storing user data and travel stories.
- **Express.js** – As the backend web application framework.
- **React.js** – For building the user interface.
- **Node.js** – To run the server-side code.

✨ Key Features

1. 🔐 User Account Management

- Secure user authentication.
- Sign up and login functionality.
- Personalized user dashboard for managing stories.

2. 📝 Story Creation & Customization

- Add story titles and descriptions.
- Attach images for visual storytelling.
- Include travel dates using an interactive calendar.
- Tag story locations via map-based or manual input.

3. ⭐ Favorites

- Mark stories as "Favorites."
- Display favorite stories at the top for quick and easy access.

4. 🔍 Search & Calendar View

- Search functionality to find stories by keywords or title.
- Interactive calendar view to browse stories by date.
- If no stories exist in the selected date or date range, display:

  "No Stories found in the given date range."

5. 🛠️ Edit and Delete

- Modify existing stories to update content, change images, or edit dates.
- Delete stories permanently if no longer needed.

🌍 User Experience Goals

- **Simple and clean interface** for ease of use.
- **Responsive design** for mobile and desktop platforms.
- **Seamless storytelling experience** with visually rich content.
- **Emotional connection** through personalization and memory keeping.

🗺️ Vision Statement

Journevia aspires to become the ultimate **travel storytelling platform**. It empowers individuals to document, revisit, and share their journeys effortlessly. Journevia isn't just about tracking places—it's about capturing the emotions, moments, and memories behind each adventure.

Let the world be your canvas.
